AICE

The Advanced International Certificate of Education (AICE) is an accelerated method of academic study administered and assessed through the University of Cambridge International Examinations.

The Cambridge approach supports schools to develop learners who are:

CONFIDENT in working with information and ideas - their own and those of others;

RESPONSIBLE for themselves, responsive to and respectful of others;

REFLECTIVE as learners, developing their ability to learn;

INNOVATIVE and equipped for new and future challenges;

ENGAGED intellectually and socially, ready to make a difference.

AICE DIPLOMA REQUIREMENTS

The AICE diploma is a group certificate which requires students to draw from three curriculum areas. They must earn at least one credit in three subject groupings.

GROUP A: Mathematics & Sciences

GROUP B: Languages

GROUP C: Arts & Humanities

REQUIRED: Global Perspectives

Benefits of AICE

- Classes in which a passing grade is attained on the CIE are awarded college credit.
- Candidates who earn seven credits of AICE courses and examinations are awarded the AICE diploma directly by the University of Cambridge.
- Candidates who earn the AICE diploma and complete 100 hours of community service earn the Florida Bright Futures Academic Scholars Award.
- AICE offers students the opportunity to make academic course selections tailored to their individual interests, abilities, strengths, and future plans within an international curriculum framework.

PRE-AICE COURSES

The AICE program of study offers students one of the most demanding and rigorous college preparatory programs in the world. After completing at least one course in the three academic areas, students will have the flexibility to choose a course of study that best meets their abilities and interests.

- Provides students with the foundation for success at higher level AICE courses.
- Develops abilities including oral and investigative techniques, problem solving, initiative, and teamwork.
- Places emphasis on broad and balanced study.
